

MAPPING BLUE DENMARK
- A database of
the Danish shipping sector, 1950-2010

Blue Denmark Conference, Svendborg, December 3, 2009

Martin Jes Iversen
Centre for Shipping Economics and Innovation
Copenhagen Business School

Point # 1:
The database aims to
map the development of
The Danish shipping sector,
1960-2010

Point # 4:
The final database will
published on the internet in
2012 – three deliveries
before

Conclusion:
Purpose of
the
database

Point # 2:
The database is created with
the shipping companies as
the core – logic links to
other parts of Blue Denmark

Point # 3:
The database is based upon
well known sources, i.e.
Norske Veritas, Greens,
Annual Reports

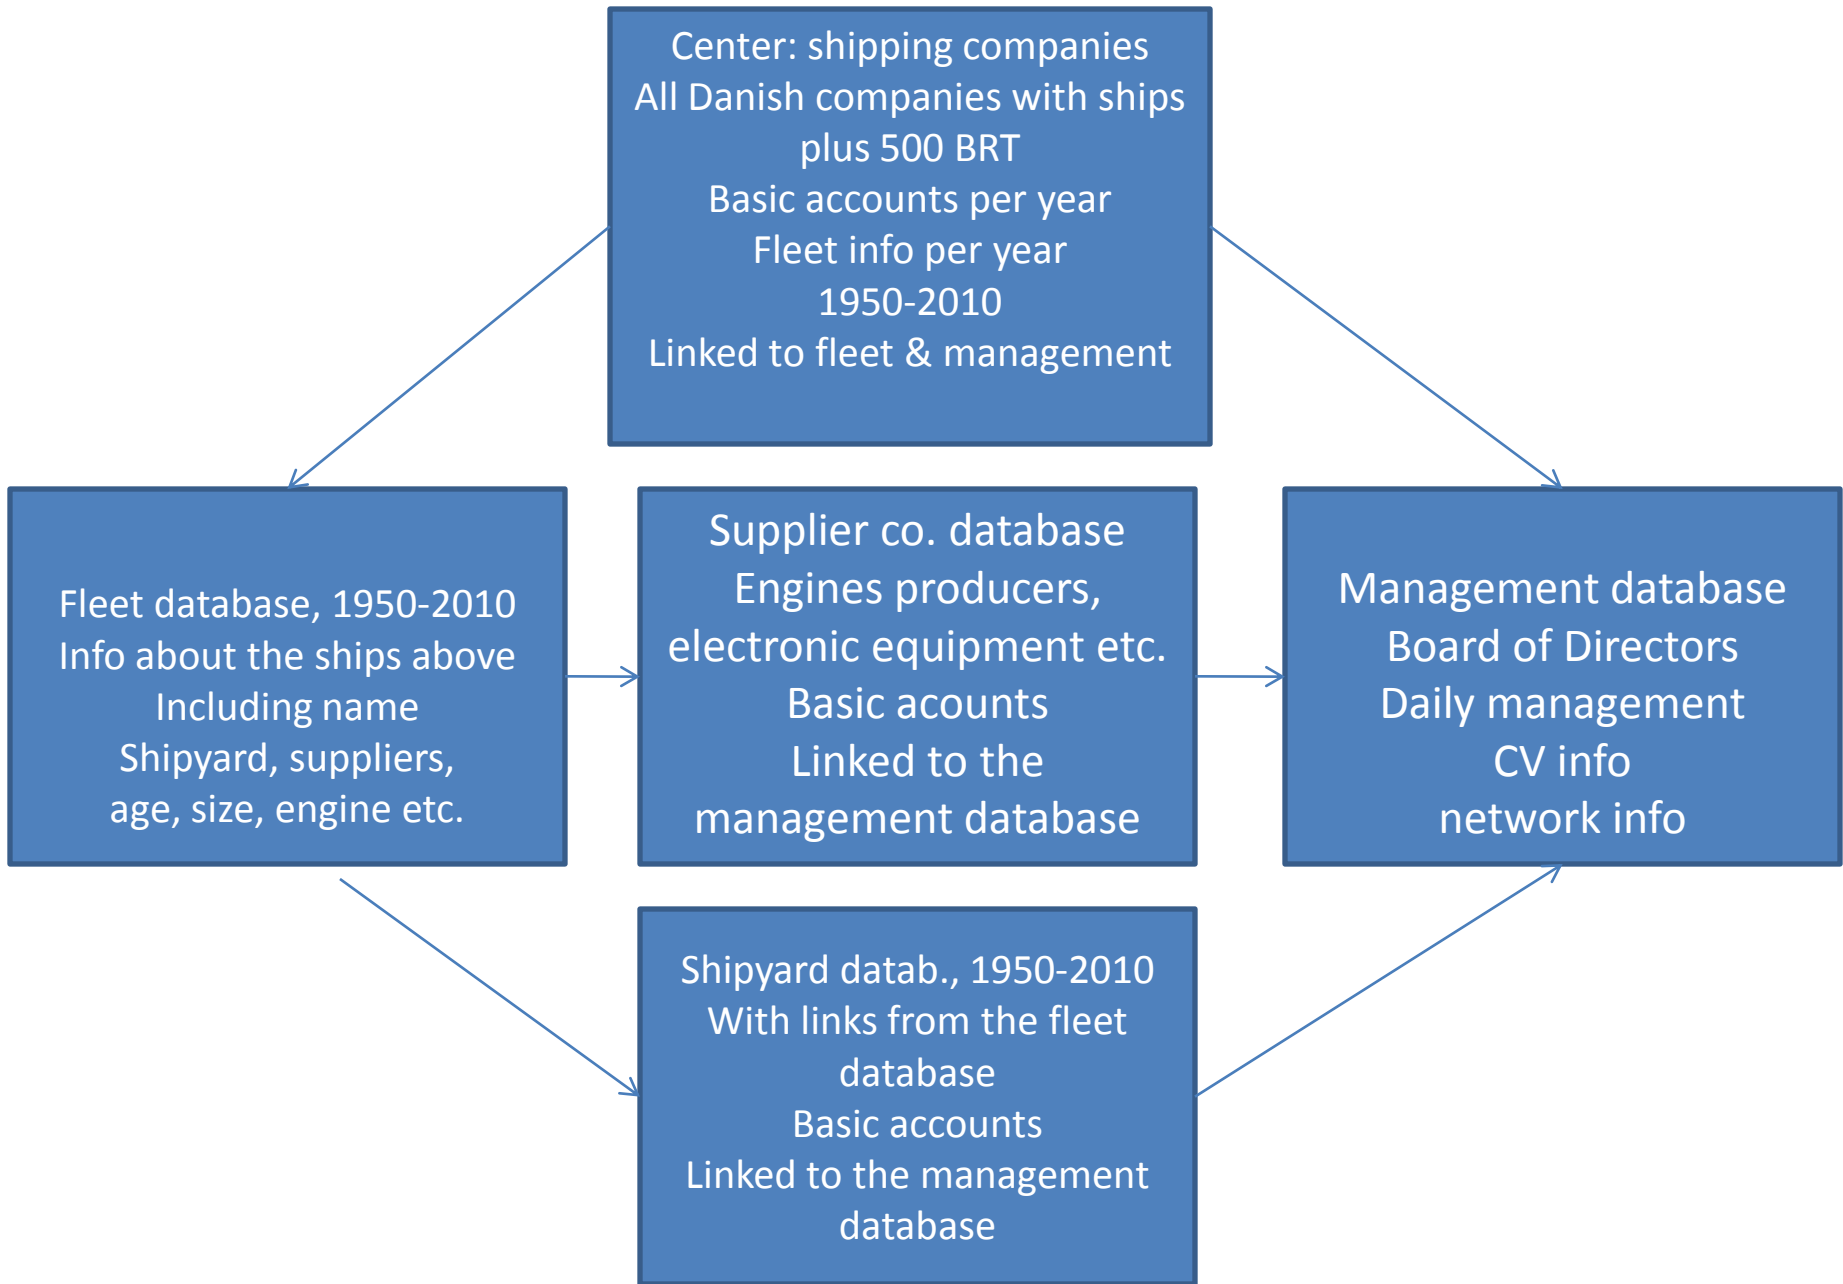

Point # 1:

The aim is to map the historical
Dynamics of the Danish shipping
Sectors (Blue Denmark), 1960-2010
The project is supported by the JL Foundation
and the Orient Foundation

The database is web-based and
will be free and open for all users.
Based on a CBS server and
access through CENSEI's
homepage

The logic of the database

Firstly we have registered all Danish ltd. Shipping companies, 1950-2010, with ships above 500 BRT

Point # 3:
The database is based upon well known sources, i.e. Norske Veritas, Greens, Annual Reports

Secondly we begin to type in account info and fleet info PER YEAR, 1950-2010

Add Entry Year: 1950 Back to Year List

Company

Fleet

Total (BRT)	Tanker (DWT)	Ships
<input type="text"/>	<input type="text"/>	<input type="text"/>
Total (DWT)	Owned (DWT)	New Build (DWT)
<input type="text"/>	<input type="text"/>	<input type="text"/>
Average Age	Operated (DWT)	New Build (Ships)
<input type="text"/>	<input type="text"/>	<input type="text"/>
Dry Bulk (DWT)	Danish (DWT)	
<input type="text"/>	<input type="text"/>	

Financials

Share Capital	Result	Share Rate
<input type="text"/>	<input type="text"/>	<input type="text"/>

Point # 4:

The final database will
published on the internet in
2012 – three deliveries
before

Timeline:

May 2010:

Finishing the shipping
Company database

December, 2010:

The Fleet database

June, 2011

The ship yard database

December, 2011

The suppliers database

December 2012

The Management database

Conclusion

The database is made for
The understanding of
the development of the maritime sector
seen in relation to:

- 1) Economic upswings & downturns
- 2) The institutional changes (DIS 1988)
- 3) The cluster effects
- 4) The corporate dynamics
- 5) Etc. ...
